Master Scheduler and a Jr Scheduler - Beaumont

I have **two new scheduling vacancies** for a refinery in the **Beaumont** area - one is for a **Master Scheduler** (\$65+/hour) and the other is for a **Jr. Scheduler** (\$45+/hour). The initial assignment duration is 6 months, but I've been notified that there is a chance of extension. Work schedule will be 5/40 and I have not been told to expect overtime. I have not yet been sent job descriptions, but if you are an experienced refinery scheduler with an interest in a 6+ month assignment in Beaumont or know someone who might be, please let me know!

Regards,
