Project Services Manager - Houston

CDI Corporation has an immediate opening for an experienced Project Services Manager to join the CDI Engineering team in Houston, TX or Baton Rouge, LA. Potential for promotion to director with growth of organization.

The position reports to the Vice President, Project Execution, and manages employees in several states, providing management oversight, training, and technical leadership to schedulers, planners, estimators, project aides, project cost control specialists and project controls managers.

This position is a full time exempt direct position at CDI offering competitive pay, benefits, flex work schedule, 401K and more!

Required Skills:

- 15+ years experience in project services functions with progressive responsibility.
- Detailed knowledge of engineering/design, procurement, construction and construction management processes and their inherent performance risks.
- Bachelor's Degree in Engineering, Construction Management or Business Administration or equivalent experience
- Experience in the petrochemical/refining industry is required, with good understanding of CII and IPA terminology and best practices.
- Understanding of Earned Value Management Systems methods, indices, and best practices.
- Experience in variance analysis vs project budget and financial plan.
- Experience providing cost estimating support for large and small project proposals for various types of contracts.
- Strong leadership presence, motivational skills, and client service oriented.

Software:

Primavera P6, MS Office (Project, Excel, Word, PowerPoint) & MS Access
